Transitions Through the Life Span Telecourse Study Guide ...

Daniel Levinson (1977) – The Seasons of a Man's Life? Freud/Piaget stages end with adolescence? Considers the whole lifespan? Studied 40 American men aged 35-45? Two key concepts in Levinson's model are the stable period and the transitional period in a person's development. ? The stable period - make choices in life and seek goals. ? The transitional period is the end of a person's stage and the beginning of a new stage.
